Print Audit
2123 48 St SW
Calgary Alberta T3E-3X6

Dear Sirs:

We are a medium-sized ad agency with a lot of proof outputs for clients. Before we installed Print Audit, capturing billable print charges was haphazard at best. But Print Audit put a stop to print jobs with no owner.

The program was easy to install and set up. Now a popup appears on each user's screen for every proofing printer. When a job is sent to the printer, a job number is assigned. by the user. Our billings for proofs have more than doubled since we installed Print Audit.

I wish every software program performed as easily and as reliably as Print Audit.

Sincerely

Ray Huss
IT Manager
